

Based on your project requirements, I understand that this is **not just an expense tracker**. It is a complete **Journalist Field Assignment & Expense Management System** for **Namaste Telangana** that manages reporter assignments, advances, expenses, receipts, approvals, settlements, and reporting.

Complete Workflow

Module 1: Authentication & Role Management

Login Roles

1. Admin
 2. Reporter (Journalist)
-

Reporter Workflow

1. Reporter Dashboard

After login reporter sees:

- Assigned Tasks Count
- Pending Assignments
- Advance Amount Received
- Pending Expense Submission
- Submitted Expenses
- Settlement Status

Actions Available

- ✓ View Assigned Tasks
- ✓ Submit Expense
- ✓ Upload Receipts
- ✓ Track Settlement Status
- ✓ View Own Reports
- ✗ Cannot Edit Other Reporters
- ✗ Cannot Approve Expenses
- ✗ Cannot Access Admin Analytics

2. Field Assignment Section

Admin assigns work.

Fields:

- Assignment ID
- Reporter Name
- Assignment Title
- Location
- Start Date
- End Date
- Priority
- Description
- Status

Status:

- Assigned
- In Progress
- Completed
- Cancelled

Flow

Admin → Create Assignment

Admin Approval

↓

Amount Released

↓

Visible in Reporter Dashboard

4. Expense Entry Section

Reporter enters expenses.

Fields:

- Expense ID
- Assignment
- Expense Date

- Category

Categories:

- Travel
- Food
- Accommodation
- Local Transport
- Miscellaneous

Fields:

- Amount
- Description
- Receipt Upload

Validation:

- Amount > 0
- Receipt mandatory above configurable limit

Flow

Reporter Submit Expense

↓

Stored Database

↓

Admin Review

5. Receipt Upload Section

Reporter uploads:

- JPG
- PNG
- PDF

Receipt linked with expense record.

Flow

Expense

↓

Upload Receipt

↓

Expense Saved

↓

Admin Verification

6. Settlement Tracking

System automatically calculates:

Settlement =

Advance Given – Actual Expenses

Examples:

Advance = ₹5000

Expenses = ₹4500

Balance Return = ₹500

OR

Advance = ₹5000

Expenses = ₹5500

Company Pays = ₹500

Status:

- Pending
 - Verified
 - Settled
-

Admin Workflow

Admin Dashboard

Main dashboard showing:

KPI Cards

- Total Reporters
 - Active Assignments
 - Advances Issued
 - Pending Expenses
 - Settlements Pending
 - Total Expense Amount
-

Assignment Management

Admin can:

- ☒ Create Assignment
 - ☒ Edit Assignment
 - ☒ Delete Assignment
 - ☒ Assign Reporter
 - ☒ Change Status
-

Reporter Management

Admin can:

- ☒ Add Reporter
 - ☒ Edit Reporter
 - ☒ Disable Reporter
 - ☒ Reset Password
 - ☒ View Activity
-

Advance Management

Admin can:

- ☒ View Requests

☒ Approve Request

☒ Reject Request

☒ Issue Advance

☒ Track Advances

Expense Verification

Admin can:

☒ View Submitted Expenses

☒ View Receipts

☒ Approve Expense

☒ Reject Expense

☒ Add Remarks

Settlement Management

Admin can:

☒ Verify Expenses

☒ Calculate Balance

☒ Mark Settled

☒ Export Settlement Reports

Analytics & Reports Module

Charts using Chart.js/Recharts

Expense Trends

- Monthly Expenses
- Weekly Expenses

Assignment Analytics

- Active Assignments

- Completed Assignments
- Pending Assignments

Reporter Analytics

- Reporter Wise Expenses
- Reporter Wise Assignments

Settlement Analytics

- Settled
- Pending
- Overdue

Automated Alerts

System should automatically notify:

Reporter

- New Assignment
- Assignment Deadline Near
- Expense Submission Pending

Admin

- New Advance Request
- New Expense Submitted
- Pending Settlement

Notification Bell on Dashboard.

Audit Logs

Very important for internship project.

Track:

- User
- Action
- Date

- Time
- Old Value
- New Value

Example:

"Admin approved Advance Request #103"

"Reporter uploaded Receipt #502"

Database Structure

Users Table

- id
- name
- email
- password
- role

Assignments Table

- id
- reporter_id
- title
- location
- start_date
- end_date
- status

Advance Requests Table

- id
- reporter_id
- assignment_id
- amount
- status

Expenses Table

- id
- assignment_id
- reporter_id
- category
- amount
- receipt
- status

Settlements Table

- id
- advance_amount
- expense_amount
- balance
- settlement_status

Audit Logs Table

- id
- user_id
- action
- timestamp

Upload Receipt	✗	✓
Verify Expense	✓	✗
Settlement Management	✓	View Only
Analytics	✓	Limited
Export Reports	✓	✗
User Management	✓	✗
Audit Logs	✓	✗

For an internship-level project, I would additionally add:

- Role-Based Access Control (RBAC)
- Dark/Light Mode
- Advanced Filters
- Excel/PDF Export
- Dashboard Notifications
- Audit Logs
- Mobile Responsive Design
- Search Across All Records
- Status Color Coding

- Receipt Preview Modal
- Pagination for Large Data

These additions will make the project look much more professional and closer to a real production system.
